<https://github.com/JEEVA-1412>

Motivated and detail-oriented Computer Science Engineer with a passion for developing innovative software solutions. Skilled in both frontend and backend technologies with a strong foundation in Java and web development. A fast learner and collaborative team player eager to contribute to impactful projects while continuously enhancing technical skills.

## Experience

### ● Aadasteck, Chennai

Apr 2025 – Present

- Expanding my foundation from B.E. (CSE) through a 6-month full-stack development training program.
- Gaining hands-on experience in developing application modules involving frontend, backend and database integration.
- Enhanced proficiency in Java, HTML, CSS, JavaScript, React.js, Angular, Spring Boot, Node.js, Oracle, and MySQL.

## Projects

### ● Rentify – Equipment Rental Mobile Application

- Developed a mobile application using React Native (CLI) with clean and structured navigation.
- Implemented Firebase Authentication for secure user login and session management.
- Integrated RESTful APIs (MockAPI) for equipment listing, cart management, and order placement.
- Used Redux for centralized state management and scalable application architecture.

### ● Employee Management Suite

- Developed a full-stack application for attendance tracking, leave management, and payroll processing.
- Implemented automated salary calculations, employee status management, and reporting features.
- Built a responsive frontend using React.js and a scalable backend with Spring Boot using RESTful APIs.

### ● User Registration Portal

- Designed and developed a user registration and profile management system.
- Implemented secure data handling and smooth frontend-backend communication.
- Used Angular for the frontend, Spring Boot for backend services, and MySQL for data persistence.

### ● Next Step Career – Career Guidance

- Created a web-based platform to support career guidance and student progress tracking.
- Developed admin functionalities for uploading guidance materials and monitoring student activities.
- Focused on improving usability and efficient data management.

## Education

---

- **B.E. – Computer Science & Engineering** 2020 – 2024
  - Sri Venkateswaraa College of Technology, Sriperumbudur
  - CGPA – 7.88 / 10.00
  
- **Higher Secondary (Computer Science)** 2019 – 2020
  - CHSS, Choolaimedu, Chennai
  - Percentage – 69%
  
- **Secondary** 2017 – 2018
  - Municipal High School, Chinnamanur, Theni
  - Percentage – 72%

## Skills

---

- **Frontend :** HTML, CSS, JavaScript, React.js, React Native, Angular, Bootstrap
- **Backend :** Java, Spring, Spring Boot, Servlet, JSP, Node.js, RESTful API
- **Database :** Oracle, MySQL
- **Tools :** Eclipse, VS Code, Spring Tool Suite, MySQL Workbench, Postman

## Certifications

---

- **Full Stack with Python Programming & JS – GUVI**
- **Power BI – ICT Academy**
- **Smart India Hackathon 2022 – Finalist**
- **AWS Cloud Practitioner – Amazon Web Services**
